Description

Did you know that sheep can see more than us? They have a 270 degree radius of vision while humans can only see 170 degrees at best.

Did you know that *Baa Baa Black Sheep* was banned in all schools in the UK city of Oxford in March 2006? Students now sing *Baa Baa Rainbow Sheep*.

Did you know that the 'sixth sick sheik's sixth sheep's sick' is said to be the toughest tongue twister in the English language?

Discover these and a multitude of other interesting facts and trivia about sheep in *Sheep's Miscellany*.

Sheep make their way into our lives in childhood, when they get up to all sorts of adventures in picture books and rhymes. By the teenage years, sheep have become objects of derision and are usually the focus of grubby humour. In adult life, they represent spring and the dawn of new life, but are also a welcome source of food and the benchmark for stupidity.

The sheep is an Australian icon and its presence is woven into our everyday life. *Sheep's Miscellany* covers every aspect of sheep from economic saviour to tasty roast and loveable pet.
